DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-13, 33-37, 48-49, 52 and 64, drawn to a water treatment cartridge with mounting lugs.

Group II, claim(s) 19-28 and 30-32, drawn to a water treatment cartridge with a seal surface.

Group III, claim(s) 29 and 63, drawn to a water treatment cartridge with an annular channel and a water inlet.

Group IV, claim(s) 40-43, drawn to a water treatment cartridge which tapers in a curved manner.

Group V, claim(s) 45-47, drawn to a liquid heating appliance.

Group VI, claim(s) 50-51, drawn to a water treatment appliance/cartridge.

Group VII, claim(s) 62, drawn to a water treatment apparatus with a hopper and valve.

2. The inventions listed as Groups I-VII do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Common to all the different inventions is a water treatment cartridge which as a common special technical feature is known to not define a contribution over the art as illustrated by US 5811004 - cited by the ISA. As such, there is a lack of unity with respect to the above noted groups.
- 3.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment

of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
